HIPAA

- ◆ Health Insurance Accountability and Portability Act of 1996 (HIPAA)
 - ◆ <http://www.hhs.gov/ocr/privacy/hipaa/administrative/>
 - ◆ Civil and criminal penalties
 - ◆ Covers:
 - ◆ Standard Transaction and Code Sets
 - ◆ National Provider Identifier
 - ◆ National Employer Identifier
 - ◆ HIPAA 5010
 - ◆ Security
 - ◆ HITECH (Breach Notification)
 - ◆ Privacy
 - ◆ Marketing
 - ◆ Business Associates

HIPAA Overview

Business Associates

- “A business associate is a person or organization, other than a member of a covered entity's workforce, that performs certain functions or activities on behalf of, or provides certain services to, a covered entity that involve the use or disclosure of individually identifiable health information. Business associate functions or activities on behalf of a covered entity include claims processing, data analysis, utilization review, and billing.
- “Business associate services to a covered entity are limited to legal, actuarial, accounting, consulting, data aggregation, management, administrative, accreditation, or financial services”.
- Providers are responsible for the actions of their business associates.
- <http://www.hhs.gov/ocr/>

HIPAA Overview

- 💧 Privacy vs. Security
 - 💧 Privacy
 - 💧 How/when any and all protected health information can be used or disclosed
 - 💧 Paper and Electronic
 - 💧 Security
 - 💧 Specific to protecting electronic protected health information

HIPAA Overview: PHI

- ◆ Protected Health Information (PHI): Individually identifiable health information is that which can be linked to a particular person. Such information in electronic form is Electronic Protected Health Information (EPHI).
- ◆ Any health or personal information given to a covered entity, whether verbal, written or electronic needs to remain confidential.

HIPAA Overview: PHI

- ◆ Names
- ◆ Street number and name, city, and last two digits of the zip code
- ◆ Dates directly related to the individual (birth date)
- ◆ Phone number
- ◆ Fax number
- ◆ Email address
- ◆ Social security number
- ◆ Medical record number
- ◆ Health insurance member number
- ◆ Account numbers
- ◆ Certificate or license numbers
- ◆ Vehicle identifiers and serial numbers
- ◆ Device identifiers and serial numbers
- ◆ Hearing aid serial numbers
- ◆ URLs
- ◆ IP addresses
- ◆ Biometric indicators
 - ◆ Finger, retinal and voice prints
- ◆ Photos
- ◆ Any unique identifying number, characteristic or code

Security Rule Overview

- ◆ The Security Rule is an extension of the Privacy Rule
- ◆ Went into effect April 20, 2005
- ◆ Applies to electronic formats
- ◆ You also need policies and procedures related to operations and documentation
- ◆ <http://www.hhs.gov/ocr/privacy/hipaa/administrative/securityrule/security101.pdf>

Security Rule Overview

- ◆ General Purpose - Ensures that electronic protected health information (EPHI) is kept private
- ◆ Enforcement... Office of Civil Rights enforces the Privacy and Security Rules in several ways:
 - ◆ investigating complaints filed with it,
 - ◆ conducting compliance reviews to determine if covered entities are in compliance, and
 - ◆ performing education and outreach to foster compliance with the Rules' requirements.
- ◆ Penalties
 - ◆ Civil and/or Criminal

Security Rule Overview

- ◆ Four Requirements of Security:
 - ◆ Ensure confidentiality, integrity, and availability of EPHI.
 - ◆ Confidentiality - data or information is not made available or disclosed to unauthorized persons or processes.
 - ◆ Integrity - data or information have not been altered or destroyed in an unauthorized manner.
 - ◆ Availability - data or information is accessible and useable upon demand by an authorized person.
 - ◆ Protect against possible threats and hazards to EPHI.
 - ◆ Protect against unauthorized uses or disclosures.
 - ◆ Ensure compliance by the workforce.

Administrative Safeguards

- ◆ Information access management:
 - ◆ Access to EPHI based on what is needed to perform the job
 - ◆ Regulate who has access to protected health information
 - ◆ Minimum necessary access
 - ◆ Security awareness and training

Administrative Safeguards

- ◆ Security updates, incident reporting, log-in, and password management
- ◆ Security incidents will be reported if suspected or if there is an actual breach
- ◆ Sanctions Policy
 - ◆ Need to enforce, Educate workforce

<http://www.hhs.gov/ocr/privacy/hipaa/administrative/securityrule/adminsafeguards.pdf>

Security Rule: Risk Assessment

- ◆ “A risk analysis process includes, but is not limited to, the following activities:
 - ◆ Evaluate the likelihood and impact of potential risks to e-PHI
 - ◆ Implement appropriate security measures to address the risks identified in the risk analysis
 - ◆ Document the chosen security measures and, where required, the rationale for adopting those measures
 - ◆ Maintain continuous, reasonable, and appropriate security protections”
 - ◆ <http://www.hhs.gov/ocr/privacy/hipaa/understanding/srsummary.html>
 - ◆ <http://www.hhs.gov/ocr/privacy/hipaa/administrative/securityrule/riskassessment.pdf>

Physical Safeguards

- ◆ Safeguard the facility and equipment, from unauthorized physical access, tampering, and theft
- ◆ Mobile Devices
 - ◆ Who has access to EPHI remotely
 - ◆ Are they accessible on personal devices?

Physical Safeguards

- ◆ Workstation use and security
 - ◆ Log on using unique ID/password
 - ◆ Log off prior to leaving the workstation
 - ◆ Inspect the last logon information
 - ◆ Report any discrepancies
 - ◆ Comply with all applicable password policies and procedures
 - ◆ Close files not in use

<http://www.hhs.gov/ocr/privacy/hipaa/administrative/securityrule/physsafeguards.pdf>

Technical Safeguards

◆ Access controls

◆ User password protection

- ◆ Unique passwords, periodic changes

- ◆ NOAH should not be ABC-123

◆ Automatic Logoff

◆ Auditing Systems

- ◆ Safeguards to record and examine access

Technical Safeguards

- ◆ Transmission Security

- ◆ Integrity of Systems

- ◆ Ensure EPHI is not being altered or destroyed improperly

- ◆ Encryption Decryption

- ◆ Communications over networks

- ◆ Should not send patient emails through typical email systems

- ◆ <http://www.hhs.gov/ocr/privacy/hipaa/administrative/securityrule/techsafeguards.pdf>

Security Rule:

Policies, Procedures and Documentation

- ◆ You need a Security Officer
- ◆ You must develop policies and procedures to comply with the security rule
 - ◆ If guidance is needed, consult an IT consultant who specializes in HIPAA
- ◆ Must have written policies and procedures
- ◆ Need to document staff training, actions, activities and risk assessments
- ◆ <http://www.hhs.gov/ocr/privacy/hipaa/administrative/securityrule/pprequirements.pdf>
